

TRANSPORTATION OF STUDENTS PARTICIPATING IN EXTRA-CURRICULAR EVENTS

District Provided Transportation

When district transportation is provided for a school sponsored extra-curricular event, at which attendance is expected, students are encouraged to use the transportation provided by the district. Exceptions are allowed with employee/sponsor/coach and/or parent/guardian approval. Form 513.0-E must be on file with the school office.

No District Provided Transportation

On occasion where district transportation is not provided for extra-curricular events within Black Hawk County, students may provide their own transportation with parent/guardian approval. No form is required for in county transportation during the school day.

In county events: If an event starts before or after school and transportation is not provided by the District, students may provide their own transportation.

If the event occurs during the school day, special permission may be granted with prior approval by the parent/guardian.

Out of county events: Students are not allowed to drive to out of county school sponsored extra-curricular events, unless there is an exception approved in advance and in writing by a parent/guardian and building administrator.

The event supervisor is required to accompany students to and from events.
