

## GIFTED AND TALENTED STUDENTS

The Waterloo Community School District is committed to providing an educational program that recognizes the unique value, needs and talents of individual students. Providing appropriate educational experiences for gifted and talented students is an integral part of this commitment.

The goal of programming is to help gifted and talented students meet their cognitive, emotional, and social needs in becoming autonomous, lifelong learners.

It is the responsibility of the Superintendent to develop a gifted and talented program which provides for identifying students, for program evaluation, and for training of employees.
