

## USE OF VIDEO CAMERAS ON SCHOOL BUSES

The Board requires the use of recording devices on school buses as a means to monitor and maintain a safe environment for students and employees. The recording devices shall be used on buses used for transportation to and from school, field trips, curricular events, and extracurricular events. The contents of the recordings may be used as evidence in a student disciplinary proceeding.

### STUDENT RECORDS

The content of the recordings is a student record subject to board policy and administrative regulations regarding confidential student records. Only those persons with a legitimate educational purpose may view the recordings. In most instances, those individuals with a legitimate educational purpose may be the Superintendent, Student Services administrator, building principal, transportation director, bus driver, and special education staffing team. A parent may view the recordings without consent from any student or parent of a minor student also shown in the recording if the other students are bystanders. But if there is an altercation between multiple students, then all parents must give consent in order for the recordings to be viewed by parents.

A recording during a school-sponsored trip, such as an athletic event, may also be accessible to the sponsor or coach of the activity. If the content of the recording becomes the subject of a student disciplinary proceeding, it may be treated like other evidence in the proceeding.

Parents/guardians may request to view recordings of their child if the recordings are used in a disciplinary proceeding involving their child in accordance with district policy.
